Grade - 95.8%

🔑 Interests

Machine Learning | Data Analytics

Book Reading | Speedcubing

🏆 Clubs and Extracurriculars

Codesmiths Club

Member, Web Development

Google Crowdsoure Event

Organized a college level Google Crowdsoure awareness event

👤 Profile

A highly motivated engineering undergraduate with a strong academic foundation and hands-on project experience. Proficient in problem-solving and collaborative teamwork. Seeking a challenging role to apply technical skills and contribute to innovative projects in a dynamic work environment.

📁 Projects

StudyBud

A web platform for users to discuss and share insights with others on different topics.

My contribution and learning:

- Created the whole website from scratch.
- Gained insight and hands-on experience into django.

Eventor

An event management website to organise and manage both professional and informal gatherings efficiently.

My contribution and insights:

- Creating the home page and design.
- Increased my proficiency with html and css.
- Coordination with a backend developer.

Eco Ville [🔗](#)

A website to help realize the ideal of a "zero waste city".

My contribution and insights:

- Helped in design and developing the front end.

🧩 Programming Skills

C | C++ | Java | Web Development (HTML, CSS, Django)

Python (Libraries: NumPy, Matplotlib, Scikit-learn)

👜 Experience

Bharat Intern

- Joined as a Machine Learning Intern
- Learned the basics of ML
- Also worked on some interesting projects that can be viewed on my LinkedIn profile

Volunteer at U&I (an NGO) [🔗](#)

- Volunteered at U&I, an NGO, as a Database Management intern
- Learned to function properly in a team by engaging in various activities and interactions with other interns and supervisors
